

Important Items

- Reduce your concern about “use it or lose it”.
 - Expenses can be incurred between January 1, 2014 and March 15, 2015, provided you remain active for all of 2014. All claims must be filed by April 30, 2015.
 - Go to www.ncflex.org and review HOTTOPICS “OTC Eligible Items”.
 - Review IRS publications 502 for eligible expenses.
- Tax-free contributions may slightly reduce our Social Security benefits; however, the value of your tax savings with an FSA should more than offset the slight reduction in Social Security benefits in the future years. Ask your Tax Advisor.
- Consider investing the additional savings. Ask your Tax Advisor.
- Be creative—find a way to start a second stream of income.

HBRs – You are Important!

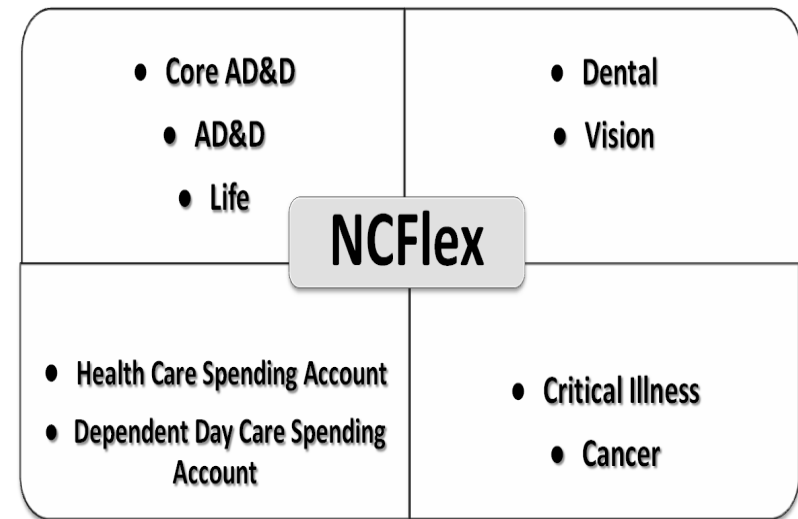

- Lastly HBRs, we want to THANK YOU for your continued support in the NCFlex Benefit Programs.
- Employees look to you for help. Our goal was to help you better understand Pre-tax Benefit Plans and provide you an additional visual tool to use in discussing this with employees.

Thank You!

NCFlex **Pre-Tax Benefits**

The Pre-Tax Advantage

***The NCFlex Program is administered through
the Office of State Human Resources***

***Prepared by: Judy G. Reed, CHC
Updated: August 28, 2013***

Understanding Pre-Tax Benefits

- Convenience and Tax Savings—Contributions for NCFlex benefits are made through payroll deduction **before taxes** are withheld. *Savings is realized each pay period with increased Take Home Pay.*
- Two ways to save:
 - Save pre-tax dollars on premiums you pay for: Dental, Vision, Voluntary AD&D, Cancer, Life and Critical Illness Plans.
 - Health Care Spending Accounts and Dependent Day Care Spending Accounts. Save pre-tax dollars on out-of-pocket eligible expenses (medical, dental, pharmacy, day care costs, and other eligible expenses).
- NCFlex is an employer-sponsored benefit pre-tax program, meaning that if you transfer to another agency, university or select community college you can take the same benefits with you.

How Pre-tax Savings are Generated!

- The following two slides are based on a 43 year old Employee with an income of \$40,020.
- Slide ① will be a married employee with a spouse and 3 children and has day care expenses, annual out-of-pocket medical/pharmacy costs and cost of insurance premiums.
- Slide ② will be a single employee with no children; however, does have annual out-of-pocket medical/pharmacy costs and insurance premiums.
- In both slides we have used an estimated 30% tax base.
- The out-of-pocket expenses are the same regardless of whether the money was After Tax or NCFlex Pre-tax.** The employee's take-home pay is more with NCFlex Pre-tax as the employee is not paying tax on their eligible out-of-pocket expenses. *Employee keeps the savings!*

EMPLOYEE - 43 years old
ANNUAL INCOME: \$40,020
MARRIED
Spouse & 3 CHILDREN

AFTER TAX EXAMPLE		NCFlex PRE-TAX EXAMPLE	
GROSS PAY - Monthly	\$3,335.00	GROSS PAY - Monthly	\$3,335.00
